Hey guys,

Last Summer during my trip through Italy with my Suzuki we met a guy operating a cable car at the dolomites and he gave me a sticker.

I just finished my 50 special and thought I should show you a picture. It's more a rat-spa but it's loud and fast.

So, happy greetings from Vienna!

Ciao

C4ncer

BTW:

Vespa has a 115polini
19-19 dell-orto with 82
vespatronic cdi
polini exhaust

I turned on the memory :woohoo: ... when I told you to come and get you a ride back to Italy, maybe mel time when we do the RTTP, with the girls, ... possibly with the bike, why not? ... or as do many friends, the topovespa loads onto a truck or trailer attached to the car, no one says anything, you're always welcome to sleep there on a camping or B & B as do the others to eat ... then we get by a 'else if Facebook strive for me under my name, Mario de Min, so are the photos of my Dolomites and those of our RTTP ... maybe you feel like ... hello again and thank you remembered to check out, gives me a great pleasure! .. ah, well ... B) say hi to the girls eh! ... please! ;) :whistle: B)
